## Professional Summary

Creative and detail-oriented **Frontend Engineer** with 3 years of hands-on experience building modern, responsive, and accessible web interfaces. Proficient in **React.js** , **Vue.js**, **Tailwind CSS**, **JavaScript (ES6+)**, and **TypeScript**, with a strong foundation in component-based architecture and UX/UI design principles. Adept at collaborating with cross-functional teams, translating design systems from **Figma** to production, and optimizing performance across browsers. Passionate about creating user-friendly, scalable applications and continuously improving through feedback and learning.

## Experience

### Frontend Developer (Bootcamp Trainee)

*Innkeeper, Lagos — April – July 2024*

- Built responsive web interfaces using **React.js**, **Tailwind CSS**, and **Vite**.

- Collaborated with designers and frontend teams to implement pixel-perfect UIs from Figma prototypes.

- Practiced **component-driven development**, state management with Redux, and dynamic routing.

- Used Git/GitHub for version control and team collaboration.

- Participated in UI-focused team projects, strengthening design thinking and code review skills.

### Frontend Engineering Fellow

*ALX Africa (Remote) — Sept 2022 – Sept 2024*

- Gained full exposure to **frontend engineering**, from design translation to API integration.

- Completed capstone project cloning a responsive e-commerce website using HTML/CSS/JavaScript.

- Worked on real-time UI features using **Firebase**, enhancing frontend-to-backend sync.

- Collaborated globally using Git, Figma, and Slack for async development.

## TECHNICAL SKILLS

**Languages & Frameworks:**
- JavaScript (ES6+), TypeScript, HTML5, CSS3/SCSS, React.js, Redux, Vue.js, Pinia, Vite, Tailwind CSS, Bootstrap, Next.js (learning)

**UI/UX & Tools:**
- Figma, Responsive Design, Accessibility (a11y), Browser DevTools, Component Libraries, GSAP (Animation)

**Testing & Dev Tools:**
- Git, GitHub, Firebase, Vercel, Chrome Lighthouse, Postman, Thunder Strike, VS Code.

**Other:**
- Agile/Scrum, RESTful APIs, Firebase Auth, Realtime DB, Basic Node.js (for frontend integration), Trello (Product Management)

## Languages

- English (Fluent)

- Yoruba (Fluent)

## EDUCATION

**Self-Taught Software Engineer,** Lagos

Sept 2022 – Present

- Completed structured frontend courses on **freeCodeCamp**, **Udemy**, and **YouTube**.

- Focus areas: React, Tailwind CSS, JavaScript, UX best practices, frontend architecture.

**ESTATE GRAMMAR SCHOOL,** Lagos — *High School Diploma*
September 2017-July 2022

## PROJECTS

**Facebook Clone**

- Developed a full-stack clone with emphasis on the **frontend interactions** (posting, commenting, notifications).
- Used React with **WebSocket** for real-time comment updates and state handling.

**OutletCart – E-commerce Web App**

- Designed and built a mobile-first e-commerce UI with **HTML, CSS, and JavaScript**.
- Implemented dynamic filtering, add-to-cart animations, and checkout UI.

## Soft Skills

- UI/UX Awareness
- Attention to Detail
- Communication & Collaboration
- Time Management
- Problem-Solving
- Adaptability in Remote Teams
